Testimonial to The Lime Plastering Company

To Whom it may Concern,

I've used Peter for all my plastering needs for several years now and hopefully will continue to do so.

The quality of work and attitude towards it is excellent, as well is the attention to detail. I have recently restored The Stable Block in Scorrier, which was lime rendered both inside and out, and was once again very impressed with the knowledge and control of what can be a very difficult material to work to obtain the desired finish.

Thanks Guys, I would have no trouble in recommending their services to anyone and you may contact me at the above.

Yours Sincerely
Clive Frost.
