Peter Seeger,  
Lime Plastering Company.

Dear Peter,

I am delighted to be able to offer you this testimonial.

I have found your company helpful, courteous and knowledgeable in respect to assessing the needs of our barn. The quote was very reasonable and the quality of the work exceptional.

We had a mixture of re-pointing and rendering on half of our cob walled barn. The work was so good that we ended up extended the work to cover another large wall (because it looked poor in comparison); and internal rendering and re-pointing.

You were happy to be flexible to our needs when we wanted a more insulated internal render using hemp; and using research and knowledge of the materials, did a great job.

I wish you the best for forthcoming years, and I would have no hesitation in recommending you to anyone.

Many Thanks,

Grant
