Pete has transformed Trevaney from neglected farmhouse to a thing of beauty. The first visit, to quote for the work, was informative, clear and detailed and when it came to the job itself he proved dedicated, flexible and conscientious. I would be happy to recommend him to anyone who wants a good, well priced job. For myself, I have already booked him to point and render the interior of the house and then to take on a development project a the property. Top marks.
