Dear Peter,

I would like to confirm that I was very happy with the work carried out on our house by Peter Seeger.

The work involved some external re-pointing of a wall and lime rendering of another large wall, and some internal re-pointing of exposed stone walls and lime rendering of a bedroom wall.

It was thoughtfully planned and has been carried out to a high quality. Disruption and mess was minimal, and Peter appeared to be hard working and productive with his time spent here. He was also considerate regarding our small children and the potential hazards associated with the work. He also very helpfully estimated the start and finish dates correctly, enabling us to plan around them.

Should we require further work I would be keen for him to do it, and I would happily recommend him to others.

Yours sincerely,

Dr Sarah Keast
