To whom it may concern,

Peter Seeger, the Lime Plastering Company

This is to recommend Peter Seeger who has carried out work of a high quality at my house in Lamorna Cove in March and April of 2010. This small granite house close to the shoreline had been badly maintained, having been pointed with cement render externally and plaster boarded within, and the internal wall were damp. As a former employee of the Crown Buildings Group in English Heritage and Conservation Officer for the Council for the Care of Churches I already knew of the advantages of lime render for this kind of remedial work, and I found Peter through their excellent website, which is endorsed by Phil Brown of the pioneering Cornish Lime Company.

I was immediately impressed by his quick response and accurate, intelligent appraisal of the work in hand. He was able to cost the work immediately, tailor specific solutions for different elements of the work, and went on to complete the job ahead of schedule by means of staying on site and working long hours. He has a highly effective and professional team and I have no hesitation in recommending them and their work.

Ruth Guilding.
