

Hi Peter

As requested, please find below our recommendation for your new website - plus 4 photos showing before and after stages. Hope this is OK?

Thanks again for all your hard work! Will look out for you at Boconnoc.

All the best

Matthew & Lindsay Hopgood

---

We had the outside of our house repointed in Spring 2015 by Peter. It had originally been repointed in sand & cement which was definitely not helping with several damp issues we were suffering from inside the house, including the chimney stack. We also had a lot of unwanted ferns and moss growing between the mortar.

Peter's skill and workmanship was excellent throughout the whole process and was completed within his estimated timescale. He kept us up-to-date on progress, even taking photographs for us during the whole process and kept the site extremely tidy. The finish is excellent and his advice has been very helpful. We couldn't recommend him highly enough to anyone thinking of using him on a project.

The photographs show the house before and after – plus if you've watched the new Poldark series, you will see the house feature in its 'before' stage as Dr Enys's lodgings.
